PROFESSIONAL SUMMARY

Dedicated BTech Computer Science graduate with a strong foundation in full-stack web development. Proficient in creating responsive user interfaces using React and building scalable backend services with Node.js, Express, and MongoDB. Experienced in implementing full-stack features and committed to writing clean, maintainable code. Actively refining backend expertise and technical problem-solving skills to contribute effectively to a collaborative development team.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React

Backend: Node.js, Express.js, REST APIs

Database: MongoDB

Version Control: Git

Core Competencies: Full-Stack Development, Debugging, Problem Solving

EDUCATION

Bachelor of Technology in Computer Science

University Name

KEY PROJECTS

Full-Stack Application Development

- Developed and implemented core features for full-stack web applications using the MERN stack.
- Built dynamic frontend components using React and managed state efficiently.
- Designed and integrated backend REST APIs using Node.js and Express.
- Managed data persistence and schema design using MongoDB.
- Utilized Git for version control and followed debugging best practices to ensure code reliability and performance.

SOFT SKILLS

- Effective verbal and written communication.

- Analytical thinking and technical problem-solving.
- Strong collaborator within a team environment.
- Eager to learn and stay updated with emerging web technologies.
